SUMMARY

Frontend Developer Intern with experience building enterprise Angular applications and responsive web interfaces using Angular, TypeScript, HTML5, CSS3, Angular Material, Reactive Forms, and REST API integration. Passionate about building scalable, user-focused digital products through clean architecture, reusable components, and thoughtful UI/UX. Currently expanding expertise in Angular architecture, RxJS, Java, Spring Boot, and software engineering to build production-ready web applications.

EXPERIENCE

Frontend Developer Intern | WorkSeer

July 2025 – Present

- Contribute to the **frontend development** of enterprise **Global Trade Management** applications using Angular and TypeScript.
- Design and develop reusable Angular components to improve maintainability and consistency across application modules.
- Build responsive user interfaces using Angular, HTML5, CSS3, JavaScript, and Angular Material.
- Implement Reactive Forms with validation and dynamic user interactions.
- Integrate REST APIs to retrieve, process, and display application data.
- Collaborate with cross-functional teams to deliver scalable frontend features and improve user experience.
- Participate in debugging, feature enhancements, and UI refinement within an Agile development environment.

PROJECTS

Software Engineering Portfolio | [Live Demo](#) | [Source Code](#)

Angular • TypeScript • Angular Material • HTML5 • SCSS • Netlify • GitHub

- Designed and developed a modern software engineering portfolio using Angular to showcase projects, experience, certifications, and technical skills.
- Built a responsive, component-based architecture with reusable UI components, dark mode, and optimized navigation.
- Focused on accessibility, responsive layouts, clean frontend architecture, and polished UI/UX.
- Deployed on Netlify with version control managed through Git and GitHub.

Aurelia Reserve — Luxury Hospitality Landing Experience | [Live Demo](#) | [Source Code](#)

Angular • TypeScript • HTML5 • CSS3 • JavaScript • Git • Netlify

- Designed and developed a premium luxury hospitality landing page using Angular 14 and TypeScript.
- Built reusable components, responsive navigation, hero slideshow, and interactive gallery.
- Optimized responsive layouts and modern UI interactions across desktop, tablet, and mobile devices.
- Deployed on Netlify with source code managed using Git and GitHub.

TECHNICAL SKILLS

Frontend: Angular, TypeScript, JavaScript, HTML5, SCSS, CSS3, Angular Material, Bootstrap, Tailwind CSS, RxJS

Backend (Learning): Java, Spring Boot, REST APIs, SQL

Tools: Git, GitHub, VS Code, Netlify, Postman

Concepts: Responsive Design, Component Architecture, Reactive Forms, REST API Integration, UI/UX, Accessibility, Performance Optimization, Clean Code

EDUCATION

Bachelor of Technology (B.Tech), Computer Science Engineering

Maryland Institute of Technology & Management (**MITM**), Jamshedpur

Jharkhand University of Technology (**JUT**) | Oct 2023 – Dec 2027

CERTIFICATIONS

Skyscanner – Front-End Software Engineering • Datacom – Software Development • Deloitte – Data Analytics • AWS – Solutions Architecture • Tata – GenAI Data Analytics • Datacom – Cyber Security Operations
